

**EUROPEAN ASSOCIATION
OF GERIATRIC PSYCHIATRY**

EAGP

One-week course in geriatric psychiatry Prilly/Lausanne –Monday 7th to Friday 11th September 2015

The EAGP is pleased to announce the second “One-week Course in Geriatric Psychiatry”.

This course will provide a forum for bringing together budding European geriatric psychiatrists with academic or institutional potential and favour networking for future co-operation across Europe.

The attendees will improve their knowledge in old age psychiatry and develop new ideas and share experiences about mental health programs and organizations.

The course will feature workshops, group discussions, and state of the art lectures by European experts in the field of geriatric psychiatry. The participants will be encouraged to make their own contributions and present their papers/research.

Who will be the attendees ?

The course will have 20 spaces for junior geriatric psychiatrists from all over Europe.

The interested junior geriatric psychiatrist is usually in their 2nd or 3rd year of general psychiatry training (depending on the national curriculum) and should be promoted by an old age faculty or an EAGP member.

Given the limited space, attendees will be selected on a first-come-first-serve basis.

(subscription deadline : July 31, 2015)

Where ?

Prilly/Lausanne - Psychogeriatric's Hospital Prilly, (hôpital de psychiatrie de l'âge avancé) Switzerland, in one of Europe's oldest old-age psychiatry services

When ?

From 7th to 11th September 2015

Which language will be spoken ?

English

What are the course fees ?

800€ ; 700€ for EAGP member.

The fees cover attendance, food, and the social event. Hotel fees are not included, but a hotel room can be booked for attendees in the same hotel upon request by the course secretary.

For more info and registration please contact the course secretary :

Number of young GPs

About 20

Workshops

Each workshop chairman is free to organize the workshop as suits them best. One way of prodding our younger colleagues into playing an active part is to attribute them specific tasks to prepare before the workshop. For example, the workshops can be organized as workshops proper or as seminars.

All young GPs will attend every workshop. Under the guidance of the workshop chairman, however, an average of 3 to 4 young GPs will prepare each a different topic related to the workshop theme. One of them will be the leader of the group and thus train their competence as workshop leaders. This is of course optional. Alternatively, the chairman chooses the specific topics and distributes the ad hoc articles (or any other material) he wants the students to work on during the workshop.

In summary, the tasks for the Chairman are to:

- organize the workshop
- chose the specific topics (general topic attributed except for Workshop 6 that will be organized according to a previous exchange with attendees)
- distribute the topics or work to do to the young GPs
- coach workshop

Plenary presentations (PP)

There are three PPs. Each PP comprises about 6 presentations, 15 minutes each including a short discussion. Each YGP prepares a GP topic of his choice that corresponds either to an institutional issue they want to develop or a research project (in preparation or ongoing or terminated).

3

Jam session

The jam session reunites all the participants as well as the teachers present on Tuesday. The idea is to come together in a quite informal way and debate on whatever GP topic may crop up. It is also possible to discuss posters the young GPs would want to take to the session to discuss them.

Social event

This may be a boat trip on Lake Geneva with some Gala dinner or some trip to a nearby mountain.
